

California Victim Compensation Program **Relocation Fact Sheet**

Housing Resources for Domestic Violence and Sexual Assault Victims

A variety of housing, shelter or relocation resources are available to victims of violent crime in California. In addition to CalVCP's emergency relocation benefit, victims should also seek assistance from local agencies, non-profit and community-based organizations.

The needs of every crime victim are unique and the availability of assistance varies in each community. Victim Witness Assistance Centers are located in each California County, crime victim advocates at these centers can help guide victims and connect them with local resources, including financial assistance through CalVCP. The following is a brief summary of CalVCP's relocation benefit and other victim resources.

Reimbursement for Relocation Expenses

CalVCP can provide qualifying victims of violent crime up to \$2,000 per household for expenses relating to relocation. In cases of dire and exceptional circumstances, assistance exceeding \$2,000 may be available.

Only one victim per crime can receive reimbursement for relocation expenses, but CalVCP may authorize more than one relocation per crime, if necessary for the physical safety or emotional well-being of the victim.

Recommendation from law enforcement (for physical safety) or mental health provider (for emotional well-being) is needed for verification purposes.

Domestic violence and sexual assault victims must agree not to inform their offender of the location of their new residence, not allow the offender on the premises at any time or the victim shall agree to seek a restraining order against the offender.

Contact a local Victim Witness Assistance Center or CalVCP at 800-777-9229 for more details on relocation benefits. Victims will be provided with a relocation packet that includes an expense worksheet, verification forms, and a CalVCP rental agreement.

Staying Safe Beyond Relocation

CalVCP financial assistance is just one part of a comprehensive strategy for recovering from victimization and preventing re-victimization. Victims should utilize safety tips, additional community and law enforcement resources to ensure their safety and security.
